

URBAN LANDSCAPES: Common Challenges - Shared Strategies

International Seminar Vienna 19th - 20th May 2006

This international seminar '**Urban Landscape: Common Challenges – Shared Strategies**' is being staged to launch the new European Urban Landscape Partnership and to present, discuss and develop these ideas in more detail.

It will take place in Vienna on 19th and 20th May 2006. The meeting will be hosted by the Department of Urban Design and Landscape Architecture at **Vienna University of Technology** within the context of the LE:NOTRE+ Plus Project 2006 Spring Workshop.

This will provide a unique forum for professionals and academic specialists on the urban landscape from city authorities, university departments, government organisations and NGOs from across Europe to share their ideas on the needs for networking and the exchange of information and experience. Taking part will provide you with an opportunity to contribute to the founding of this important new European project for the urban landscape.
